Please note: Books are placed in an age bracket based on their content being appropriate to an age group as well as their reading level. Although your child may be able to read a book from an older age bracket, beware of encouraging them to read books aimed at older children as the content will probably be less accessible or appropriate to them. Also, allow children to enjoy books that are simpler for them to read as well as those that they find more challenging. Reading is a pleasure. As adults, although we are capable of reading 'War and Peace' we don't want to read at that level of challenge all the time! The same is true for children.
